Black Pioneers in Communication Research Jul 18
2022 Black Pioneers in Communication Research
is the only book in the field of communication
that—through personal
interviews—systematically explores the lives,
careers, and profound conceptual contributions of
the men and women who have helped shape the
contours of humanistic and social scientific
inquiry within communication studies and
beyond.

The Second Generation of African American
Pioneers in Anthropology Oct 17 2019 After the
pioneers, the second generation of African
American anthropologists trained in the late
1950s and 1960s. Expected to study their own or
similar cultures, these scholars often focused on
the African diaspora but in some cases they also
ranged further afield both geographically and
intellectually. Yet their work remains largely
unknown to colleagues and students. This volume
collects intellectual biographies of fifteen
accomplished African American anthropologists of

the era. The authors explore the scholars' diverse backgrounds and interests and look at their groundbreaking methodologies, ethnographies, and theories. They also place their subjects within their tumultuous times, when antiracism and anticolonialism transformed the field and the emergence of ideas around racial vindication brought forth new worldviews. Scholars profiled: George Clement Bond, Johnnetta B. Cole, James Lowell Gibbs Jr., Vera Mae Green, John Langston Gwaltney, Ira E. Harrison, Delmos Jones, Diane K. Lewis, Claudia Mitchell-Kernan, Oliver Osborne, Anselme Remy, William Alfred Shack, Audrey Smedley, Niara Sudarkasa, and Charles Preston Warren II

African-American Children at Church Dec 19 2019 African-American Children at Church explores African-American socialization beliefs and practices, based on findings of a unique, four-year long study in a Baptist church in Salt Lake City, Utah. By combining the ethnographic approaches of anthropology with the detailed naturalistic observations of developmental psychology, Dr Haight provides a rich description of actual socialization practices along with an interpretation of what those patterns mean to the participants themselves. Based on extensive

interviews with successful African-American adults involved with children, this book begins with the exploration of adults' beliefs about socialization issues focusing on the role of religion in the development of resilience. Drawing from naturalistic observations of adult-child interaction, the book then describes actual socialization contexts and practices that help to nurture competencies in African-American children. The text focuses on Sunday School and includes narrative practices and patterns of adult-child conflict and play.

The Bone and Sinew of the Land Mar 14 2022

The long-hidden stories of America's black pioneers, the frontier they settled, and their fight for the heart of the nation When black settlers Keziah and Charles Grier started clearing their frontier land in 1818, they couldn't know that they were part of the nation's earliest struggle for equality; they were just looking to build a better life. But within a few years, the Griers would become early Underground Railroad conductors, joining with fellow pioneers and other allies to confront the growing tyranny of bondage and injustice. The Bone and Sinew of the Land tells the Griers' story and the stories of many others like them: the lost history of the nation's first

Great Migration. In building hundreds of settlements on the frontier, these black pioneers were making a stand for equality and freedom. Their new home, the Northwest Territory--the wild region that would become present-day Ohio, Illinois, Indiana, Michigan, and Wisconsin--was the first territory to ban slavery and have equal voting rights for all men. Though forgotten today, in their own time the successes of these pioneers made them the targets of racist backlash. Political and even armed battles soon ensued, tearing apart families and communities long before the Civil War. This groundbreaking work of research reveals America's forgotten frontier, where these settlers were inspired by the belief that all men are created equal and a brighter future was possible. Named one of Smithsonian's Best History Books of 2018

The Black in Crimson and Black Nov 10 2021 The pages of Black and Crimson celebrate the Black Excellence of past and present faculty and staff at San Diego State University. The 'over the years' book introduces you to the academic achievements, research initiatives, professional and career developments, and offers prime examples of leadership and community service. This collection of profiles should serve as

motivation to African American students attending SDSU now and into the future by instilling in them a sense of pride from the first day they set foot on campus. They will understand who provided the shoulders they now stand upon as they achieve academic and personal success within and beyond the campus.

The Early Black History Movement, Carter G. Woodson, and Lorenzo Johnston Greene Apr 15 2022 The men who launched and shaped black studies This book examines the lives, work, and contributions of two of the most important figures of the early black history movement, Carter G. Woodson and Lorenzo Johnston Greene. Drawing on the two men's personal papers as well as the materials of the Association for the Study of Negro Life and History (ASNLH), Pero Gaglo Dagbovie probes the struggles, sacrifices, and achievements of these black history pioneers. The book offers the first major examination of Greene's life. Equally important, it also addresses a variety of issues pertaining to Woodson that other scholars have either overlooked or ignored, including his image in popular and scholarly writings and memory, the democratic approach of the ASNLH, and the pivotal role of women in the association.

Black Pioneers Aug 19 2022 The image of the pioneer as white, male, strong, independent, Protestant, and native-born was created in popular literature towards the end of the 19th century, perhaps as a reaction against increased immigration and urbanization on the east coast. Ravage (communications, U. of Wyoming-Laramie) furthers the struggle to disseminate a truer image by assembling over 200 photographs never published before depicting African-Americans in the West. They are supported by substantial text, drawings, and reproductions of contemporary documents. Annotation

Slavery and Freedom Among Early American Workers Dec 31 2020 Covering a chronological span from the seventeenth century to the Civil War, the book reunites black and labor history, including such major topics as the formation of slavery in the North, the American Revolution, blacks and the Workingmen's Movement, and interracial marriage before the Civil War. This book provides fascinating reading for students of American history, labor history, urban history, and black history.

The Black History Activity Book Apr 03 2021

From Juneteenth and unsung civil rights activists

to daring female aviators to black EMTs who pioneered the profession, The Black History Activity Book will entertain, educate, and enlighten as you make your way through its pages. Learn about important figures and events in black history in a way you haven't experienced before, and then you can test your knowledge and explore further with trivia questions, crossword puzzles, word searches, and detailed coloring pages that will keep you stimulated for hours. This activity book features the inspirational biographies of black pioneers and trailblazers in various fields. You'll meet the inventor Frederick McKinley Jones, the opera sensation Marian Anderson, and the founder of an exclusive all-black California town, among several others. You will also be presented with a brief history of Newark, complete with an ethnic transformation that created a stew for racial violence and uprising. Each biographical article is followed by at least one related activity and an associated coloring page for your enjoyment. Unlike other books on the market that feature well-known subjects and events from black history, The Black History Activity Book covers obscure history makers, whose triumphs, struggles, and dreams are also worth telling. Prepare to be edified!

Black Like Me Feb 25 2023

Black Pioneers in a White Denomination Jan 24 2023 Focusing largely on two pioneering black ministers -- Egbert Ethelred Brown, founder of the first Unitarian church in Harlem, and Lewis A. McGee, founder of the Interracial Free Religious Fellowship in Chicago's black ghetto -- Black Pioneers paints a painful yet important portrait of racism in liberal religion. Includes compelling stories from some of today's more integrated Unitarian Universalist congregations and biographical notes on past and present black Unitarian, Universalist and UU ministers.

Black Pioneers of the North American Soccer League (1968-84) Oct 21 2022 They are the Forgotten Figures! They came from Africa, the Caribbean, the Americas, and the United Kingdom and showed America how to play soccer. They exhibited highly technical skills of the game, taught the youths in communities across the USA and Canada, and were their role models. They crusaded the game's uniqueness and its beauty. They were the black pioneers of the (original) North American Soccer League (1968-'84). Among them were the first MVPs of the league and the very first NASL Rookie of the Year; they were among the leading scorers and led their

teams to NASL titles. In the process, they played a significant role in making the NASL a world-respected league, which led to the 1994 World Cup in the USA and now the successful MLS. Their efforts made soccer an American sport, and among them were Alberto, Archibald, Auguste, Best, Cannon, Charles, Coker, Cole, Cubillas, Cummings, David, De Leon, Eusebio, Evans, Fowles, Gamaldo, Grell, Horne, Horton, Ingram, Kapengwe, Knight, Lamptey, Largie, Lewis, Lichaba, Lindsay, Mathieu, Mfum, Mokgojoa, Motaung, Mwila, Ntsoelengoe, Odoi, Pearce, Phillips, Sanon, Scott, Sono, St. Lot, St. Vil, St. Vil, Steadman, Valentine, Welch, Welch, Whalen, and Pele. It all started with them; now they will be forgotten no more. This book is their tribute!

Black History in the Last Frontier Dec 23 2022

Who's who in Black Canada 2 Feb 19 2020 In this second edition of Who's Who in Black Canada, Dawn Williams updates her tome of Black achievements and success in Canada, with over 730 entries. Province by province, this indispensable educational and networking tool puts the spotlight on the impressive range of achievements of Blacks in Canada- from business leaders to musicians to engineers, artists, doctors, judges and filmmakers. Filled with

information and inspiration, Who's Who in Black Canada 2 is an excellent resource for schools, libraries, professionals and those working with youth.

Black Pioneer Dec 11 2021

Black Police in America Jun 17 2022 "Clear, concise, and filled with new materials, the book sets a high standard . . . Scholars in African American, police, and urban history will all be grateful for what is certain to become a fundamental work in their fields." —The Alabama Review "A balanced, perceptive, and readable study." —Kirkus Reviews " . . . easily read and interesting text . . . " —The Post and Courier (Charleston, SC) "[This] readable book is bound to explode plenty of myths. . . . This is an important book that is long overdue." —Our Texas, The Spirit of African-American Heritage "There is no better time than now for this electrifying, clear, and much needed volume." —Robert B. Ingram, President, National Conference of Black Mayors "Black Police in America is the most comprehensive and best documented study that I have read on African Americans in law enforcement." —Nudie Eugene Williams, University of Arkansas "Full of fascinating stories and accounts of racism and heroism, as well as

photos and charts, this volume fills a void in the study of the African-American experience." —South Carolina Historical Magazine ". . . a fresh and original study and an important contribution to the fields of African American and urban history and criminal justice." —The Journal of American History ". . . an accomplished and wide-ranging comparative analysis of the role of race in the development and operation of police departments in America's nineteenth- and twentieth-century cities." —The Journal of Southern History African Americans demanded "colored police for colored people" for over two centuries. *Black Police in America* traces the history of African Americans in policing, from the appointment of the first "free men of color" as slave patrollers in 19th-century New Orleans to the advent of black police chiefs in urban centers—and explains the impact of black police officers on race relations, law enforcement, and crime.

Black Patriots and Loyalists Jul 26 2020 A surprising look at the roles of African Americans in the Revolutionary War: "An elegant and passionate writer, Alan Gilbert pulls no punches." —Historian We think of the American Revolution as the war for independence from

British colonial rule. But, of course, that independence actually applied to only a portion of the American population—African Americans would still be bound in slavery for nearly another century. Drawing on first-person accounts and primary sources, Alan Gilbert asks us to rethink what we know about the Revolutionary War, to realize that while white Americans were fighting for their freedom, many black Americans were joining the British imperial forces to gain theirs. Further, a movement led by sailors—both black and white—pushed strongly for emancipation on the American side. There were actually two wars being waged at once: a political revolution for independence from Britain, and a social revolution for emancipation and equality—planting the seeds for future freedom. “The personal stories of those who fought on the patriots’ side in an all-black regiment and on the loyalist side in exchange for a promise of freedom are fascinating and informative.” —Booklist

Moving On Feb 01 2021 First Published in 1999. Routledge is an imprint of Taylor & Francis, an informa company.

Saints, Slaves, and Blacks May 24 2020 Originally published shortly after the LDS Church lifted its priesthood and temple restriction on black Latter-

day Saints, Newell G. Bringhurst's landmark work remains ever-relevant as both the first comprehensive study on race within the Mormon religion and the basis by which contemporary discussions on race and Mormonism have since been framed. Approaching the topic from a social history perspective, with a keen understanding of antebellum and post-bellum religious shifts, *Saints, Slaves, and Blacks* examines both early Mormonism in the context of early American attitudes towards slavery and race, and the inherited racial traditions it maintained for over a century. While Mormons may have drawn from a distinct theology to support and defend racial views, their attitudes towards blacks were deeply-embedded in the national contestation over slavery and anticipation of the last days. This second edition of *Saints, Slaves, and Blacks* offers an updated edit, as well as an additional foreword and postscripts by Edward J. Blum, W. Paul Reeve, and Darron T. Smith. Bringhurst further adds a new preface and appendix detailing his experience publishing *Saints, Slaves, and Blacks* at a time when many Mormons felt the rescinded ban was best left ignored, and reflecting on the wealth of research done on this topic since its publication.

Black Pioneers Jan 12 2022 Black Pioneers is an important new edition of *With the White People*, Henry Reynolds' challenging account of the role of Aboriginal and Islander people in the exploration and development of colonial Australia. In this book, Henry Reynolds debunks the notion that indigenous peoples have contributed nothing towards that creation of a prosperous modern society, that modern Australia rests on the sturdy foundations put down in the nineteenth century by the European pioneers. *Black Pioneers* pays tribute to the labour and skill of the thousands of black men, women and children who worked for the Europeans in a wide range of occupations: as interpreters, concubines, trackers, troopers, servants, nursemaids, labourers, stockworkers and pearl-divers. Some of their intriguing stories are here revealed.

White Flight/Black Flight Mar 02 2021 Urban residential integration is often fleeting—a brief snapshot that belies a complex process of racial turnover in many U.S. cities. *White Flight/Black Flight* takes readers inside a neighborhood that has shifted rapidly and dramatically in race composition over the last two decades. The book presents a portrait of a working-class

neighborhood in the aftermath of white flight, illustrating cultural clashes that accompany racial change as well as common values that transcend race, from the perspectives of three groups: white stayers, black pioneers, and "second-wave" blacks. Rachael A. Woldoff offers a fresh look at race and neighborhoods by documenting a two-stage process of neighborhood transition and focusing on the perspectives of two understudied groups: newly arriving black residents and whites who have stayed in the neighborhood. Woldoff describes the period of transition when white residents still remain, though in diminishing numbers, and a second, less discussed stage of racial change: black flight. She reveals what happens after white flight is complete: "Pioneer" blacks flee to other neighborhoods or else adjust to their new segregated residential environment by coping with the loss of relationships with their longer-term white neighbors, signs of community decline, and conflicts with the incoming second wave of black neighbors. Readers will find several surprising and compelling twists to the white flight story related to positive relations between elderly stayers and the striving pioneers, conflict among black residents, and differences in cultural understandings of what constitutes crime and

disorder.

Black Working Wives Jul 06 2021 "Bart Landry's Black Working Wives is a very comprehensive account of the family revolution in America. I learned a great deal reading this thoughtful book. Landry's discussion of the dual career marriages of black women decades before the feminist revolution, and the lessons they provide not only for understanding dynamic changes in American families but also for anticipating the future of the modern two-career family, is insightful and persuasive."—William Julius Wilson, author of *The Bridge over the Racial Divide* "Bart Landry's Black Working Wives is a perceptive analysis that connects the historical circumstances of Black women to the transformation of modern American family structures. This is an important contribution which should engage general readers, students, and public policy leaders and deepen our understanding of the origins and value of the dual career family."—Darlene Clark Hine, author of *Speak Truth to Power* "Landry blends history, demography, and contemporary social analysis to illuminate the form and function of African-American families over time. He does a particularly good job of describing how, decades ago, middle-class black families prefigured the

relatively egalitarian, two-wage earner households that are so common today. An incisive and rewarding book."—Jacqueline Jones, author of *American Work* "This is first-rate, engaging, provocative, solid scholarship. I enthusiastically recommend it!"—Walter R. Allen, University of California, Los Angeles "Landry has made a significant contribution to an existing body of literature on the family and race--and, more important, he has advanced a position that is not present in that literature."—Troy Duster, University of California, Berkeley, and New York University "A very important book that contributes vitally to the small but growing literature on African American women and their agency in making lives for themselves and their families and in shaping American society."—Cheryl Townsend Gilkes, Colby College

Blacks in the Law Sep 08 2021 In *Blacks and the Law*, Geraldine R. Segal carefully and completely details the history and current status of black lawyers, judges, law professors, and law students in the United States. Extensive research into all available materials for Philadelphia, supplemented by interviews and questionnaires, results in an unrivaled study of the situation in one city. Her findings are then placed in a

national setting by using comparative data from fifteen other American cities. The wealth of data presented here shows the persistence of high degrees of racial exclusion and underrepresentation practiced by the legal profession over many years. Countervailing these findings are success stories of enormously motivated and determined blacks who have overcome great obstacles to attain high positions as lawyers and judges. Within the legal establishment, increasing numbers of whites have dedicated themselves to lowering barriers to black participation. Blacks and the Law brings to light the racial prejudices of the white American legal community as well as its efforts to overcome such biases. It also shows the massive effort black people have made to achieve significant but limited progress toward integration of the legal profession and indicates the amount of work still ahead. This study is therefore of vital interest to all members of the legal profession, students of race relations, social mobility, and the professions, Philadelphians, and others who follow the struggle for racial equality.

Today in African-American History Jan 20 2020
Every year Black History Month sparks an annual debate about the use of the month of February to

celebrate the history and accomplishments of African-Americans. Although February provides an amazing opportunity to celebrate and acknowledge the achievements of African-Americans throughout history, it's also important to honor African-American history during the other eleven months of the year as well. While Black History Month is synonymous with prominent figures such as Dr. Martin Luther King Jr., Harriet Tubman, Rosa Parks, Muhammad Ali, Jackie Robinson, Maya Angelou and President Barack Obama, there are countless other African-Americans who have made a profound impact in history. The best way to extend the spirit of Black History Month is to continue recognizing each day of the year with other significant contributions African-Americans have made in our society and the world. The incredible men and women featured in this book have contributed to the fields of Education, Science, Technology, Politics, Law, Medicine, Sports and Entertainment, to name a few. This book features their accomplishments for all 366 days of the year. Recognizing the accomplishments of African-Americans began in 1926 with Negro History Week, a commemoration launched by Historian, Dr. Carter G. Woodson. He chose the second

week of February to coincide with and pay homage to the birthdays of President Abraham Lincoln and Frederick Douglass. He credited the two for bringing an end to slavery in America. The Federal Government officially recognized Black History Month in conjunction with the 1976 United States Bicentennial Celebration.

Black Pioneers in Communication Research Sep 27 2020 " Black Pioneers in Communication Research is a pathbreaking book that displays a refreshingly joyful and critical spirit. Here, communication theory is shown to be the work of real persons living real lives, asking real questions of real problems. By celebrating and evaluating the lives of Black scholars as they have sought to advance communication studies, readers are introduced to perhaps the first truly foundational text our field has to offer! By tracing pioneers' life histories up to their current contributions to the field of communication, students will not simply be exposed to a concept and its definition, but rather invited to explore the evolution of both the concept and its progenitor. This illuminates and enlivens the study of communication while helping readers to be conscious of the conditions that have helped to shape our current state of knowledge. Black

Pioneers in Communication Research is fully edifying: It lifts all communication scholars higher by being courageous enough to teach us as intellectuals that when we lay bare some of the intricacies of our lives, our students are better able to understand the complex canvases upon which our paradigms are built." --Eric King Watts, Wake Forest University

Black Pioneers in Communication Research is the only book in the field of communication that-through personal interviews-systematically explores the lives, careers, and profound conceptual contributions of the men and women who have helped shape the contours of humanistic and social scientific inquiry within communication studies and beyond. The personal lives and careers of eleven leading scholars are profiled: Molefi Kete Asante, Donald E. Bogle, Hallie Quinn Brown, Melbourne S. Cummings, Jack L. Daniel, Oscar H. Gandy, Jr., Stuart Hall, Marsha Houston, Joni L. Jones, Dorothy L. Pennington, and Orlando L. Taylor. These pioneers have had an indelible impact on Black Studies, sociology, communication, political science, film studies, rhetoric, sociolinguistics, and cultural studies. **Black Pioneers in Communication Research** presents a penetrating look into the circumstances that shifted the

paradigms of interdisciplinary thought. Some of the concepts covered in this book are afrocentricity, articulation theory, aphasia, oral performance and interpretation, womanism, Black English, Black oral traditions, the TrEE communication development model, chronemics, as well as the mammy, buck, mulatto, coon, and Uncle Tom images in film and television. Intended Audience: This is an excellent textbook for advanced undergraduate and graduate courses dealing with African American communication and/or communication research (such as intercultural communication, African American communication, African American studies, African American rhetoric, communication research, and communication theory~

The Encyclopedia of African American Military History Oct 29 2020 Weir's work (over 300 entries) is one of the most complete on the subject. Much more than a record of individuals and units, it includes, among other topics, battles, forgotten and famous; injustices and heroes; legislation and regulation; accidents and deliberate acts; medals and mutinies.... Highly recommended. --Choice An outstanding accounting of African-American Military 'heroes' in history. As a retired African-American 4-Star

General Officer, I was very pleased to read about the accounts of those to whom I owe much gratitude and thanks for paving the way ! I was even more pleased to read about so many that I knew nothing about previously . This 'Encyclopedia' is must reading in the reference libraries for all Americans! --General [USAF-retired] Lester L. Lyles...No military historian's library should be without this book. --C.D.B. Bryan, author of Friendly Fire

This is a very important, carefully researched book, which fills the gaping hole in our understanding of the heroic role of African Americans in the military history of our country. Though they were denied their rights to freedom and equality by our nation, their courage and patriotism in protecting those rights was extraordinary. - Bruce A. Morrison, member of U.S. Congress, 1983-1991

Although African American soldiers and sailors have fought in every U.S. war from the War of Independence to the War on Terrorism, their contributions are rarely and, at best, erratically recorded in encyclopedias of American military history. Most Americans would be hard-pressed to name even a few of the many heroic black servicemen, who have distinguished themselves in the annals of military history. While a public figure like Colin

Powell is well known, and many people are now aware of the black regiment depicted in the movie *Glory*, few have heard of David Lamson. When he was close to sixty years old, this African American captain of a small local militia successfully routed British reinforcements near Concord at the beginning of the Revolutionary War. Even fewer know about the buffalo soldiers (as African American cavalry units were once called) who rescued Teddy Roosevelt and his Rough Riders in the famous battle of San Juan Hill during the Spanish American War. This book is teeming with essential information that has been overlooked in other references. William Weir's *Encyclopedia of African American Military History* is designed to provide long overdue recognition to the outstanding accomplishments of hundreds of African American servicemen. More than three hundred entries will not only delineate the achievements of individuals and military units, but will also highlight important, often forgotten battles, wars, legislation and policy, organizations and movements, and historical incidents. Thoroughly researched and historically accurate, with numerous illustrations, this comprehensive and substantive reference work is written to be accessible, engaging, and

informative for all readers. William Weir (Guilford, CT), an army combat correspondent during the Korean War, is the author of *Written with Lead: Legendary American Gunfights and Gunfighters* and *A Well Regulated Militia: The Battle over Gun Control*, among other books.

Famous African-American Women May 16 2022
Includes sketches and short biographies of: Phillis Wheatley, Sojourner Truth, Harriet Tubman, Mary Ann Shadd Cary, Frances E.W. Harper, Ellen Craft, Mary Elizabeth Bowser, Josephine St. Pierre Ruffin, Mary Eliza Mahoney, Susie Baker King Taylor, Anna Julia Haywood Cooper, Ida B. Wells Barnett, Mary Eliza Church Terrell, Madam C.J. Walker, Maggie Lena Walker, Mary Leod Bethune, Zora Neale Hurston, Bessie Coleman, Hattie McDaniel, Ethel Waters, Marian Anderson, Clara "Mother" Hale, Katherine Dunham, Mahalia Jackson, Rosa Parks, Daisy Bates, Gwendolyn Brooks, Ella Fitzgerald, Constance Baker Motley, Shirley Chisholm, Althea Gibson, Coretta Scott King, Leontyne Price, Maya Angelou, Lorraine Hansberry, Toni Morrison, Myrlie Evers-Williams, Barbara Jordon, Marian Wright Edelman, Wilma Rudolph, Nikki Giovanni, Oprah Winfrey, Mae Jemison, Jackie Joyner-Kersey, and Whitney Houston.

The Black History Book Feb 13 2022 Discover the rich and complex history of the peoples of Africa, and the struggles and triumphs of Black cultures and communities around the world. With profiles of key people, movements, and events, The Black History Book brings together accounts of the most significant ideas and milestones in Black history and culture. This vital and thought-provoking ebook presents a bold and accessible overview of the history of the African continent and its peoples - from the earliest human migrations to modern Black communities and the African diaspora. Powerful images and innovative infographics bring to life the stories of the early kingdoms of Ancient Egypt, Nubia, and Carthage; the powerful empires of the Medieval and Early Modern eras; and the struggle against European colonizers. Black history and culture beyond the African continent is also explored in detail - including the Atlantic Slave Trade; the quilombos (slave resistance camps) of Brazil; the Harlem Renaissance and Jazz Age; the "Windrush" migration; Civil Rights and Black feminist movements; and Black Lives Matter. Using the "Big Ideas" series' trademark combination of authoritative, accessible text and bold graphics, The Black History Book examines the

achievements and struggles of Black communities across the world up to the modern day, as well as the influence of Black cultures on art, literature, and music the world over.

Root and Branch Nov 17 2019 In this remarkable book, Graham Hodges presents a comprehensive history of African Americans in New York City and its rural environs from the arrival of the first African--a sailor marooned on Manhattan Island in 1613--to the bloody Draft Riots of 1863.

Throughout, he explores the intertwined themes of freedom and servitude, city and countryside, and work, religion, and resistance that shaped black life in the region through two and a half centuries. Hodges chronicles the lives of the first free black settlers in the Dutch-ruled city, the gradual slide into enslavement after the British takeover, the fierce era of slavery, and the painfully slow process of emancipation. He pays particular attention to the black religious experience in all its complexity and to the vibrant slave culture that was shaped on the streets and in the taverns. Together, Hodges shows, these two potent forces helped fuel the long and arduous pilgrimage to liberty.

They Cleared the Lane Nov 22 2022 Today, black players compose more than eighty percent of the

National Basketball Association's rosters, providing a strong and valued contribution to professional basketball. In the first half of the twentieth century, however, pro basketball was tainted by racism, as gifted African Americans were denied the opportunity to display their talents. Through in-depth interviews with players, their families, coaches, teammates, and league officials, Ron Thomas tells the largely untold story of what basketball was really like for the first black NBA players, including recent Hall of Fame inductee Earl Lloyd, early superstars such as Maurice Stokes and Bill Russell, and the league's first black coaches. *They Cleared the Lane* is both informative and entertaining, full of anecdotes and little-known history. Not all the stories have happy endings, but this unfortunate truth only emphasizes how much we have gained from the accomplishments of these pioneer athletes.

[Black Pioneers](#) Sep 20 2022 A biographical history of influential African American pioneers and freedom fighters in the Midwest, including Sara Jane Woodson, Peter Clark, and Dred Scott.

[Pioneer Urbanites](#) Oct 09 2021 "Makes us rethink community formation in the United States.

Cliches about the frontier melting pot can no

longer abide. The emerging community that Daniels describes is one of multi-ethnic diversity and tension. Equally important, this is a rare study of the birth, development, and transformation of an Afro-American community."—Nathan Irvin Huggins, author of *Harlem Renaissance*

The Book of Negroes Jun 24 2020 Since publication of *The Black Loyalist Directory* in 1996, the primary component, *The Book of Negroes*, has become one of the most-cited of American Revolutionary primary sources. This new edition salutes *The Book of Negroes* by using the original title of this famous accounting of Black freedom. On the surface, *The Book of Negroes* is a laconic, ledger-style enumeration of 3,000 self-emancipated and free Blacks who departed as part of the British evacuation of Loyalists from New York City in the summer and fall of 1783 for Nova Scotia, England, Germany, and other parts of the world. Created under orders from Sir Guy Carleton (Lord Dorchester), Commander-in-Chief of British forces in North America, to placate an angry George Washington, Commander-in-Chief of the Continental Army (USA), who regarded the Black Loyalists as fugitive slaves, *The Book of Negroes* is, as Alan

Gilbert has observed, a "roll of honor."

The History of Blacks in Canada: A Selectively Annotated Bibliography Nov 29 2020 This fascinating bibliography of source materials clearly demonstrates the significant roles blacks have played in the history and culture of Canada from its beginnings as well as their 400-year fight for equity and justice. Organized by area of endeavor and by province, the source materials detailed here reveal that blacks in Canada have created a rich, diverse, and complex legacy. This volume lists resources that point to blacks' history as soldiers, prospectors, educators, cowboys, homesteaders, entertainers, legislators, athletes, artists, servants, and writers. The most comprehensive bibliography about blacks in Canada that has been published, it is well organized to facilitate locating specific topics or people spanning black history. Also included are newspapers and videos that add their own unique contribution. Academicians, researchers, students, and interested lay people will find an organized compilation of a vast number of primary and secondary sources about blacks in Canada.

Black People and Their Place in World History Jun 05 2021 If you really want to know about "Black

People and Their Place in World History" then you should order Dr. Leroy William Vaughn MD, MBA's masterpiece. Dr. Vaughn is not only one of the world's renowned ophthalmologists, but also one of the leading authorities on Black history.

Basketball is Michael Jordan's game. Black history and ophthalmology are Dr. Vaughn's games. Dr. Vaughn's medical credentials and expertise as a diabetic eye specialist and as a remarkable surgeon make him a leader in his field. His knowledge as an historian is equally as outstanding. Dr. Vaughn's patients swear by him for his medical skills. Historians marvel at him because of his talents as a researcher and writer on the subject of Black history. Dr. Vaughn rattles off Black history facts like an orator recites a speech he has practiced on delivering for days. When it comes to reciting the roles Black people have played in world history, Dr. Vaughn has dazzled some of the most learned minds in America.

The Pioneers May 04 2021

California's Black Pioneers Aug 07 2021 Traces the role of blacks in the settlement and development of California from the Spanish era to the present.

From Slavery to Freetown Mar 22 2020 During

the American Revolution over 3,000 persons of African descent were promised freedom by the British if they would desert their American rebel masters and serve the loyalist cause. Those who responded to this promise found refuge in New York. In 1783, after Britain lost the war, they were evacuated to Nova Scotia, where for a decade they were treated as cheap labor by the white loyalists. In 1792 they were finally offered a new home in West Africa; over 1,200 responded and became the founders of Freetown in Sierra Leone. This history follows ten of these freed slaves from their escape from masters in Virginia and the Carolinas to their sojourn in wartime New York, their evacuation to Nova Scotia and finally their exodus to Freetown, where they struggled for another decade for not only freedom and dignity but the right to worship as they choose, make an honest living, and govern themselves.

Black Pioneers Apr 22 2020 The image of the pioneer as white, male, strong, independent, Protestant, and native-born was created in popular literature towards the end of the 19th century, perhaps as a reaction against increased immigration and urbanization on the east coast. Ravage (communications, U. of Wyoming-Laramie) furthers the struggle to disseminate a

truer image by assembling over 200 photographs never published before depicting African-Americans in the West. They are supported by substantial text, drawings, and reproductions of contemporary documents. Annotation copyrighted by Book News, Inc., Portland, OR

White Flight/Black Flight Aug 27 2020 Urban residential integration is often fleeting—a brief snapshot that belies a complex process of racial turnover in many U.S. cities. White Flight/Black Flight takes readers inside a neighborhood that has shifted rapidly and dramatically in race composition over the last two decades. The book presents a portrait of a working-class neighborhood in the aftermath of white flight, illustrating cultural clashes that accompany racial change as well as common values that transcend race, from the perspectives of three groups: white stayers, black pioneers, and "second-wave" blacks. Rachael A. Woldoff offers a fresh look at race and neighborhoods by documenting a two-stage process of neighborhood transition and focusing on the perspectives of two understudied groups: newly arriving black residents and whites who have stayed in the neighborhood. Woldoff describes the period of transition when white residents still remain, though in diminishing

numbers, and a second, less discussed stage of racial change: black flight. She reveals what happens after white flight is complete: "Pioneer" blacks flee to other neighborhoods or else adjust to their new segregated residential environment by coping with the loss of relationships with their longer-term white neighbors, signs of community decline, and conflicts with the incoming second wave of black neighbors. Readers will find several surprising and compelling twists to the white flight story related to positive relations between elderly stayers and the striving pioneers, conflict among black residents, and differences in cultural understandings of what constitutes crime and disorder.
