Looks at the many dimensions of aging and considers the joys of this special stage of life as well as the rewards of being open to new experiences and new relationships. Bestselling author and renowned family counselor Michael Gurian teaches you how to embrace aging and life after fifty through this spiritual and comprehensive guide. The topic of aging after fifty is frequently only discussed in terms of health—what are the physical symptoms that come with advanced age, and what can we do about them? The Wonder of Aging, however, aims to look at aging in a new way—as something that is positive, showing how miraculous our second half of life can be. Gurian divides life after fifty into four stages: Stage 1: The Age of Transformation. This is the stage of life from the late forties to approximately sixty. Stage 2: The Age of Distinction. This stage of life lasts from approximately sixty to seventy-five. Stage 3: The Age of Completion. This stage involves completing our life-journey, both together (if we are still coupled) and alone, if our spouse has passed on or if we are divorced. He developed these stages in response to both scientific and anthropological information, and in response to the needs of his clients, who sought help and understanding where they were and what to expect in the second half of life. With updated research and anecdotes to help you discover a new paradigm for aging, you can understand how aging affects you physically, mentally, relationally, and spiritually, and how to celebrate these changes holistically and healthfully. From a stunning new literary voice comes a brilliant debut novel that created an international auction frenzy, with sales in twenty-seven countries to date, about a young girl growing up in extraordinary times. On a seemingly ordinary Saturday morning, Julia and her family wake to discover, along with the rest of the world, that the rotation of the earth has suddenly begun to slow. Extraordinary for its original concept, unforgettable characters, and the grace, elegance and beauty of Karen Thompson Walker's prose, *The Age of Miracles* is a mesmerizing story of family turmoil, young love, and coming-of-age set against an upending of life as we know it. \$22 trillion opportunity that can be unlocked only if you rethink everything you think you know about people over sixty. In the time it takes you to read this, another twenty Americans will turn sixty-five. thousand people a day are crossing that threshold, and that number will continue to grow. In fifteen years, Americans aged sixty-five and over will outnumber those under age eighteen. Nearly everywhere in the world, people over sixty are the fastest-growing age group. Longevity presents an opportunity that companies need to develop a strategy for. Estimates put the global market for this demographic at a whopping \$22 trillion across every industry you can imagine. Entertainment, travel, education, health care, housing, transportation, consumer goods and services, product design, tech, financial services, and many others will benefit, but only if marketers unlearn what they think they know about this growing population. The key is to stop thinking of older adults as one market. *Stage (Not Age)* is the concise guide to help companies understand that people over sixty are a deeply diverse population. They're traveling through different life stages and therefore want and need different products and services. This book helps you expand your understanding of what an "old person" is. It demonstrates how three people, all seventy years old, may not even be in the same market segment. It identifies the systemic barriers to entering this market and provides ways to overcome them. And it shares the best practices of companies that have successfully shifted to a *Stage (Not Age)* mentality. This practical guide prepares companies and marketers for an inevitable shift they can't ignore.

First published in 1979, *European Demography and Economic Growth* presents a collection of essays on the demographic development of individual European economies like Austria, Hungary, Germany, France, Italy, Norway, Portugal etc. It provides a comparative analysis to clarify many crucial issues connected with the growth in European population from mid-eighteenth century. It looks at the suitable criteria for assessing the applicability of general theory to the experience of individual nations. It showcases the over-riding contrast between substantial economic variations on a national and regional level and the existence of common underlying demographic trends. This book will be useful for scholars and researchers of economic history, political economy, European history, population geography and economics in general.

Discussions of love and loss, fear and faith, death and dignity show how one's relationship to faith changes as one ages. She shows how one's spirituality deepens and that years bring peace. An investigation into the societal impact of intelligent, high-achieving women who are honing traditional homemaking skills traces emerging trends in sophisticated crafting, cooking and farming that are reshaping the roles of women. Winner of the Pulitzer Prize, the 1999 National Book Award for Nonfiction, finalist for the Lionel Gelber Prize and the Kiriya Pacific Rim Book Prize, *Embracing Defeat* is John W. Dower's brilliant examination of Japan in the immediate, shattering aftermath of World War II. Drawing on a vast range of Japanese sources and illustrated with dozens of astonishing documentary photographs, *Embracing Defeat* is the fullest and most important history of more than six years of American occupation, which affected every level of Japanese society, often in ways neither side could anticipate. Dower, whom Stephen E. Ambrose has called "America's foremost historian of the Second World War in the Pacific," gives us the rich and turbulent interplay between West and East, the victor and the vanquished, in a way never before attempted, from top-level manipulations concerning the fate of Emperor Hirohito to the hopes and fears of men and women in every walk of life. Already regarded as the benchmark in its field, *Embracing Defeat* is a work of colossal scholarship and history of the very first order. John W. Dower is the Elting E. Morison Professor of History at the Massachusetts Institute of Technology. He is a winner of the National Book Critics Circle Award for *War Without Mercy*.

Gray Love narrates stories about the most common themes – searching for and (perhaps) finding love. Forty-five men and women between ages 60 and 94 from diverse backgrounds talk about dating, starting and ending a relationship, embracing life alone or enjoying a partnered one. The longing for connection as old age encroaches is palpable here, with more and more senior singles searching online. Those who find new partners explore issues that most relationships encounter at any age, as well as some that are unique to elder relationships. These include having had previous partners and a complicated and deep personal history; family and friends' reactions to an older person's dating; alternative models to marriage (such as sharing space or living apart); having more than one partner at the same time; one's aging body, appearance, and sexuality; and the pressure of time and the specter of illness and death. In *Embrace*

"If I Survive You" is a collection of connected short stories that reads like a novel, that reads like real life, that reads like fiction written at the highest level." —Ann Patchett • "Kaleidoscopic, urgent, hilarious, revelatory and like nothing you've read before." —Marlon James • "May well be the buzziest debut of 2022." —Oprah Daily A September 2022 IndieNext Pick. A major debut, blazing with style and heart, that follows a Jamaican family striving for more in Miami, and introduces a generational storyteller. In the 1970s, Topper and Sanya flee to Miami as political violence consumes their native Kingston. But America, as the couple and their two children learn, is far from the promised land. Excluded from society as Black immigrants, the family pushes on through Hurricane Andrew and later the 2008 recession, living in a house so cursed that the pet fish launches itself out of its own tank rather than stay. But even as things fall apart, the family remains motivated, often to its own detriment, by what their younger son, Trelawny, calls "the exquisite racking compulsion to survive." Masterfully constructed with heart and humor, the linked stories in Jonathan Escoffery's *If I Survive You* center on Trelawny as he struggles to carve out a place for himself amid financial disaster, racism, and flat-out bad luck. After a fight with Topper—himself reckoning with failures as a parent and his longing for Jamaica—Trelawny claws his way out of homelessness through a series of odd, often hilarious jobs. Meanwhile, his brother, Delano, attempts a disastrous cash grab to get his kids back, and his cousin, Cukie, looks for a father who doesn't want to be found. As each character searches for a foothold, they never forget the profound danger of climbing without a safety net. Pulsing with vibrant lyricism and inimitable style, sly commentary and contagious laughter, Escoffery's debut unravels what it means to be in between homes and cultures in a world at the mercy of capitalism and whiteness. With *If I Survive You*, Escoffery announces himself as a prodigious storyteller in a class of his own, a chronicler of American life at its most gruesome and hopeful. The Love Song of André P Brink is the first biography of this major South African novelist who, during his lifetime, was published in over 30 languages and ranked with the likes of Gabriel García Márquez, Peter Carey and Aleksandr Solzhenitsyn. Leon de Kock's eagerly awaited account of Brink's life is richly informed by a previously unavailable literary treasure: the dissident Afrikaner's hoard of journal-writing, a veritable chronicle that was 54 years in the making. In this massive new biographical source — running to a million words — Brink does not spare himself, or anyone else for that matter, as he narrates the ups and downs of his five marriages and his compulsive affairs with a great number of women. These are precisely the topics that the rebel in both

politics and sex skated over in his memoir, *A Fork in the Road*. De Kock's biographical study of the author who came close to winning the Nobel Prize for Literature not only synthesizes the journals but also subjects them to searching critical analysis. In addition, the biographer measures the journals against additional sources, both scholarly and otherwise, among them the testimony of Brink's friends, family, wives and lovers. *The Love Song of André P Brink* subjects Brink's literary legacy to a bracing scholarly re-evaluation, making this major new biography a crucial addition to scholarship on Brink. Hal and Sidra Stone are the creators of "Voice Dialogue" process, a therapy that transforms the inner critic from a crippling adversary to productive ally. The inner critic. It whispers, whines, and needles us into place. It checks our thoughts, controls our behavior, and inhibits action. It thinks it is protecting us from being disliked, hurt, or abandoned. Instead, the critical inner voice causes shame, anxiety, depression, exhaustion and low-self-esteem. It acts as a powerful saboteur of our intimate relationships and is a major contributor to drug and alcohol abuse. Through examples and exercises, the Stones show us how to recognize the inner critic, how to avoid or minimize "critic attacks," and, most important, how the inner critic can become as intelligent, perceptive, and supportive partner in life. *The Gift of an Ordinary Day* is an intimate memoir of a family in transition—boys becoming teenagers, careers ending and new ones opening up, an attempt to find a deeper sense of place, and a slower pace, in a small New England town. It is a story of mid-life longings and discoveries, of lessons learned in the search for home and a new sense of purpose, and the bitter intensity of life with teenagers—holding on, letting go. Poised on the threshold between family life as always known it and her older son's departure for college, Kenison is surprised to find that the times she treasures most are the ordinary, unremarkable moments of everyday life, the very moments that she took for granted, or rushed right through without noticing at all. The relationships, hopes, and dreams Kenison illuminates will touch women's hearts, and her words will inspire mothers everywhere as they seek to make peace with the inevitable changes in store. Rather than treat ADD/ADHD as a disorder, Dr. Lynn Weiss celebrates this "brainstyle"—a diversity in thinking—and provides a caring, humanized perspective. Via insights and exercises and using her experience as a counselor and social scientist, Dr. Weiss harnesses the positives in ADD/ADHD rather than the negatives by giving readers the tools they need to embrace their unique brainstyle. "Gail has the ability to show us how to move our lives forward with power, dignity and grace . . . She is truly the Goddess of Creativity." —Loretta LaRoche, bestselling author of *Juicy Living*, *Juicy Aging* The world is on overload, at least from our modern-day Western perspective. Gail McMeekin believes that we can effectively reduce stress in our lives and bring more meaning into them, and she has developed a program to help people to do just that by showing them the power of making positive choices. Readers are taught to see their Serenity Stealers—issues, habits, people—that need to be "subtracted" from their lives. With those negative life choices gone—choices that deplete their energy and sidetrack them from their goals—readers are shown how to make positive life choices. Carefully selected and added one at a time, these life choices will bring them closer to the joy and meaningfulness they need and desire. *The Power of Positive Choices* is short and brief by design. Filled with probing questions and helpful self-tests, it is a brilliant distillation of the steps we each need to take to make the power of choice work . . . [a] clear

vibrant, go-go juice of a book" (Jennifer Loudon, author of Why Bother?: Discover the Desire for What's Next). "By showing us how to confront and banish what's holding us back and how to consciously choose what's best in the long run, this book reminds us that we have choices that affect the quality of our lives and helps us create a life in which joy plays a leading role." —Patti Breitman, author of How to Say No Without Feeling Guilty The best antiaging secrets for women.
