With simple, reassuring text and bold illustrations in a limited palette, Nope! Never! Not For Me! espouses a patient approach to picky eating and empowers kids to explore new experiences without stress or pressure.

The Outsiders Jun 22 2020 50 years of an iconic classic! This international bestseller and inspiration for a beloved movie is a heroic story of friendship and

belonging. Cover may vary. No one ever said life was easy. But Ponyboy is pretty sure that he's got things figured out. He knows that he can count on his brothers, Darry and Sodapop. And he knows that he can count on his friends—true friends who would do anything for him, like Johnny and Two-Bit. But not on much else besides trouble with the Socs, a vicious gang of rich kids whose idea of a good time is beating up on “greasers” like Ponyboy. At least he knows what to expect—until the night someone takes things too far. *The Outsiders* is a dramatic and enduring work of fiction that laid the groundwork for the YA genre. S. E. Hinton's classic story of a boy who finds himself on the outskirts of regular society remains as powerful today as it was the day it was first published. “*The Outsiders* transformed young-adult fiction from a genre mostly about prom queens, football players and high school crushes to one that portrayed a darker, truer world.” —The New York Times “Taut with tension, filled with drama.” —The Chicago Tribune “[A] classic coming-of-age book.”

The Mostly Invisible Boy (Casey Grimes)

Nov 15 2019 ? Silver, Wishing Shelf Book
Awards! ? Bronze, Readers' Favorite
International Awards Contest! This "wildly
imaginative" (Book Pipeline) "splendid
conception" (Kirkus) from upstart author
AJ Vanderhorst celebrates the
transformative power of courage, tenacity
and a little skill with a battle-axe. Set
in an alternate USA where monsters prowl,
this debut novel is told from the
perspective of mostly-invisible-but-still-
hopeful Casey Grimes. Eleven-year-old
Casey is stubbornly friendly, but he's
eternally the new kid at Vintage Woods
Middle School. Students look right through
him-and they're not faking. Casey doesn't

know why he's mostly-invisible, but when he scales a colossal oak, he discovers a fortress in its branches. The forgotten sentry tree marks the border between his safe, suburban life and a fierce frontier. Casey and his little sister Gloria infiltrate Sylvan Woods, a secret forest society devoted to ancient, wild things. Sky-high footpaths. Survival sewing. Monster control. Shockingly, people here actually see Casey-but being seen isn't enough. He wants to belong. Keeping his identity hidden--while struggling to prove he fits--is hard enough, but Butcher Beasts have returned to Sylvan Woods after a hundred years. Trickery is under siege. As the monsters close in, and the fearsome Sylvan Watch hunts Casey down, he and his newfound friends must unearth abandoned magic, buried at the forest's roots...or be devoured along with everyone else, Sylvans and civilians alike. A fast-paced middle grade fantasy/adventure book with all the monsters kids could ever hope for.

The Sirens of Mars _____ Oct 27 2020 "Sarah Stewart Johnson interweaves her own coming-of-age story as a planetary scientist with a vivid history of the exploration of Mars in this celebration of human curiosity, passion, and perseverance."—Alan Lightman, author of Einstein's Dreams WINNER OF THE PHI BETA KAPPA AWARD FOR SCIENCE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Times (UK) • Library Journal "Lovely . . . Johnson's prose swirls with lyrical wonder, as varied and multihued as the apricot deserts, butterscotch skies and blue sunsets of Mars."—Anthony Doerr, The New York Times Book Review Mars was once

similar to Earth, but today there are no rivers, no lakes, no oceans. Coated in red dust, the terrain is bewilderingly empty. And yet multiple spacecraft are circling Mars, sweeping over Terra Sabaea, Syrtis Major, the dunes of Elysium, and Mare Sirenum—on the brink, perhaps, of a staggering find, one that would inspire humankind as much as any discovery in the history of modern science. In this beautifully observed, deeply personal book, Georgetown scientist Sarah Stewart Johnson tells the story of how she and other researchers have scoured Mars for signs of life, transforming the planet from a distant point of light into a world of its own. Johnson's fascination with Mars began as a child in Kentucky, turning over rocks with her father and looking at planets in the night sky. She now conducts fieldwork in some of Earth's most hostile environments, such as the Dry Valleys of Antarctica and the salt flats of Western Australia, developing methods for detecting life on other worlds. Here, with poetic precision, she interlaces her own personal journey—as a female scientist and

a mother—with tales of other seekers, from Percival Lowell, who was convinced that a utopian society existed on Mars, to Audouin Dollfus, who tried to carry out astronomical observations from a stratospheric balloon. In the process, she shows how the story of Mars is also a story about Earth: This other world has been our mirror, our foil, a telltale reflection of our own anxieties and yearnings. Empathetic and evocative, *The Sirens of Mars* offers an unlikely natural history of a place where no human has ever set foot, while providing a vivid portrait of our quest to defy our isolation in the cosmos.
